

Year 1 Example Remote Learning Timetable

Here is an example timetable for a day of remote learning at home. This is only an example – of course your day will need to fit best around your family at home. At very least, this timetable does give you an idea about the amount of time that you should be spending on each part of the remote learning. Sometimes it might take you a little longer, sometimes you might finish a little quicker – but don't rush through your work and if you're really struggling, ask for some help.

Time	Subject	Notes
08.50 – 09.00	Set up for Zoom	Make sure you have a charged device ready. Make sure you have the link or the details for the Zoom session which can be found on the story section of Class Dojo. You can click to get into the lesson now. Don't forget to make sure it is your child's name when you connect.
09.00-09.30 (30 mins)	Live Zoom session	The live Zoom session will have a different focus each day. There will be some interactive whiteboard work followed by a question and answer session. We will go through anything that the children have found difficult with their previous work and answer any questions about the day's work on Sway.
09.30-9.40 (10 mins)	Wake up, shake up	Get your mind ready to work by getting your body active. Join in with the exercise video on the Sway or choose one of your own. Sometimes the exercises will be linked to an area of the curriculum such as multiplications. Drink plenty of water as your brain works best when hydrated.
09.40 – 9.50 (10 mins)	Whiteboard work	Using your whiteboard or your book in your pack follow the whiteboard work from the Sway. This will be a mixture of basic maths skills, number formation, letter formation, name writing and other key skills.
9.50 -10.10	Break	Take this time to walk around, have a drink of water and a healthy snack.
10:10 – 10.40 (30 mins)	Maths	Watch the video link on the Sway for the maths lesson. Pause it where directed and let your child have a go at answering the questions. Using the worksheets in your pack or the sheet on Class Dojo answer the questions linked to today's lesson.
10.40 - 11.00 (20 mins)	Reading	Work through the input on the Sway. This will usually be a video or things to read in your Tin Forest book that is in your pack. There will sometimes be some vocabulary work linked to words within the book. This might be practise saying the word, saying it in a sentence or writing it in your own sentence or all three!
11.00 -11.10	Break	Take this time to walk around, have a drink of water and a healthy snack.
11.10 – 11.30 (20 mins)	Phonics	Say the sounds on the flashcards on the Sway. Practise all the cards two or three times. Do the same with the Tricky words. Listen to the audio which helps you know how to say today's sound. Practise saying it. There will then be a sheet to go with the sound of the day. This will be a find the sound sheet or one of the games which we play in the classroom.
11.30 – 12.00 (30 mins)	Topic or other lessons	There will be topic activities linked to our materials topic, PSHE or other themes.

12.00 - 1.00	Lunch	
1.00 - 1.30 (30 mins)	English	Work through the input on the Sway. This will be linked to our Little Red story. This might be some oral work retelling the story, creating an S-plan (drawing the story in pictures), writing descriptions etc. Most days there will also be a written task.
1.30-1.40 (10 mins)	Basic Maths Skills	Some flashcard work on our basic maths skills.
1.40-1.50	Break	Take this time to walk around, have a drink of water and a healthy snack.
1.50 – 2.20 (30 mins)	Topic or other lessons Physical activities	There will be topic activities linked to our materials topic, PSHE or other themes. Most of the time this will be practical but there will also be opportunities for the children to show their creative side by making posters, drawing/painting, posting a video explaining their learning, finding objects around the house etc. Mr Lewsley and Miss Merifield will be putting PE and Music activities on Class Dojo.
2.20-3.00	Free time activities	Spend some time on an activity that your child will enjoy. This could be reading book of their choice, drawing, painting or watching a BBC learning program.

Ideas for websites:-

[Lockdown Learning: BBC puts school materials on TV, iPlayer and online - BBC News](#) This tells you what is available on the BBC

[Topmarks Education: teaching resources, interactive resources, worksheets, homework, exam and revision help](#) lots of games in all subjects (see below for one example)

[Hit the Button - Quick fire maths practice for 5-11 year olds \(topmarks.co.uk\)](#) some good interactive maths games

[Fun maths games and activities | Oxford Owl](#) they also have free games for other areas of the curriculum

[ictgames](#) | [html5 English Games Page](#) lots of different games for all areas of the curriculum.

These are just a sample. If you Google 'interactive games for KS1' then you will find literally hundreds of possible sites to visit. I would choose a few and stick with those otherwise you could end up just wasting time searching for websites rather than playing the educational games!
